ACM Technical ("Tech Trivia Challenge") Event Report

Introduction:

The Tech Trivia Challenge, organized by the Association for Computing Machinery (ACM) at Dadi Institute of Engineering and Technology, was a one-of-a-kind event that focused on testing participants' knowledge of basic programming concepts. Held on 28-02-2024 in Lab-2, the event attracted over 60+ participants eager to showcase their understanding of fundamental programming concepts.

Event Format:

The Tech Trivia Challenge consisted of a single round, during which participants answered a series of multiple-choice and fill-in-the-blank questions. The questions were designed to test participants' knowledge of basic programming syntax, concepts, and history.

Participants:

The event saw participation from a diverse group of individuals, including students and programming enthusiasts. The participants' enthusiasm and eagerness to learn made the event a truly engaging and rewarding experience.

Questions and Topics:

The trivia questions covered a range of basic programming topics, including:

*Syntax and keywords of popular programming languages

*Basic programming concepts such as variables, loops, and conditionals

*History and evolution of programming languages

Scoring and Prizes:

Participants were scored based on the accuracy and speed of their answers. Prizes, including E-certificates, were awarded to the top performers, encouraging friendly competition and rewarding participants' knowledge and skills.

Impact and Feedback:

Feedback from participants highlighted the event's success in challenging them to think critically about programming languages. Many participants expressed a desire for more events focused on basic programming concepts, indicating a positive impact on their interest and understanding of programming.

Conclusion:

The Tech Trivia Challenge, organized by ACM at Dadi Institute of Engineering and Technology, was a resounding success. The event not only tested participants' knowledge of basic programming concepts but also fostered a sense of community and camaraderie among attendees. ACM looks forward to organizing more events to continue promoting interest and learning in the field of computing.
